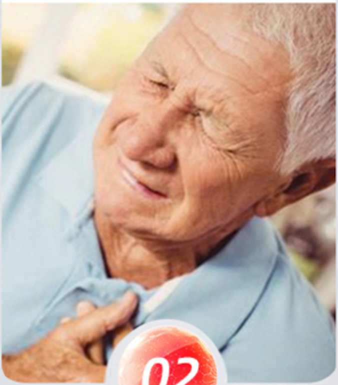
care

What troubles are caused by the loss of CoQ10?

Palpitations and chest tightness from staying up late to work overtime

01

Insufficient cardiac strength due to aging



02

Lack of motivation for exercise and fitness

Dull yellow skin and increased fine lines

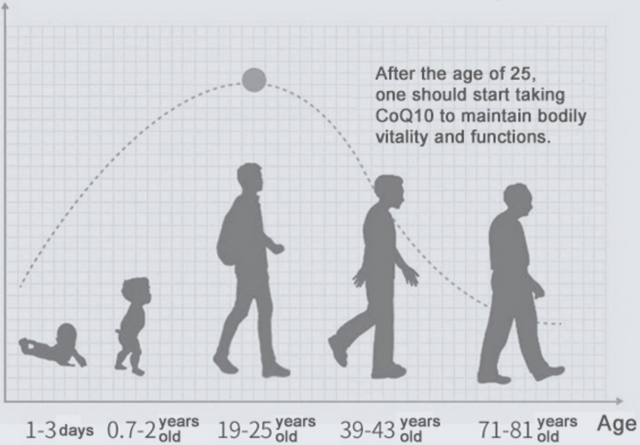
CoQ10 in your body gradually depletes over time.

CoQ10 is present in all living cells, with higher levels in cellular mitochondria. It is an important participant in the respiratory chain and also an essential substance for energy-releasing nutrients to produce energy. If the body is deficient in CoQ10, cells cannot undergo sufficient oxidation, fail to provide enough energy for the organism, and life activities will be affected.

CoQ10 is closely

linked to heart age.

CoQ10 concentration in the human body.



After the age of 25, one should start taking CoQ10 to maintain bodily vitality and functions.

1

High levels of CoQ10 provide better protection for the heart.

Significant CoQ10 supplementation is challenging to achieve through ordinary diet.

1 bag of Q10

4.5kg sardine

7.5kg beef

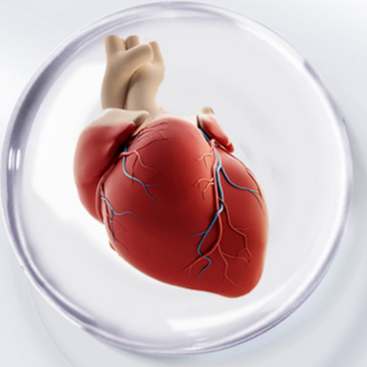
2

CoQ10 in the heart provides greater security.



1 Enhance oxygen supply

Provide oxygen to the cardiac muscle and activate cardiac muscle cells.

2 Q10 is the engine of the cell.

Helps improve energy conversion efficiency and enhance vitality.

3 Boost immunity

A cell metabolism and respiration promoter and immune enhancer

4 Antioxidant

CoQ10 can scavenge free radicals by generating superoxide anion radicals and inhibit oxidative stress reactions.

Nanotech-formulated to enhance CoQ10's heart-protective benefits.

Extracted via microbial fermentation,
with high purity and good absorbability.

✗ **Animal and plant extraction methods:**
Low content and limited restricted sources of raw materials.

✓ **Microbial fermentation method:**
Natural extraction with good biological activity, high purity, and easy absorption

✗ **Chemical synthesis method:**
Low purity of CoQ10.

Free of animal organ ingredients.

advantage

High concentration

Each sachet contains 60mg of CoQ10. Take one sachet morning and evening daily to provide a steady supply of energy for cells throughout the body.

High activity

Nanotechnology formula + extracted herbal essence = high-activity CoQ10.

High absorption rate

CoQ10 is an excellent fat-soluble antioxidant, but it has poor absorbability. However, its absorption rate can be significantly improved after being developed using NanoDoc patented technology.

Nanotechnology

Quality raw materials

Natural source, not artificially synthesized.

CoQ10 offers multiple health benefits.

Protect heart health

Assist in reducing blood pressure

Assist in lowering blood lipids

Prevent senile plaques

Enhance immune function

Smooth out wrinkles

Nourish and protect the ovaries

Stabilize the heart rate

CoQ10, a Nobel Prize-winning substance

As a well-established vitamin supplement, CoQ10 has been sought after by a large number of health-conscious consumers. In 2017, the global market consumption of CoQ10 reached 800 tons, and it is projected to hit 1,700 tons by 2024.

+

One sachet each morning and evening to keep your heart energized

25 Years old

Working 996 and burning the midnight oil?
Your body’s CoQ10 is being overconsumed.
Take one sachet morning and evening—no more palpitations even with late nights and overtime!

35 Years old

The backbone of the family under great mental stress? Take one sachet morning and evening to tackle midlife challenges.

50 Years old

As age increases and bodily functions start to decline, take one sachet morning and evening for a stronger heart and more vitality

70 Years old

In your golden years, if your heart beats slowly,
take one sachet morning and evening—no more chest tightness or shortness of breath.

Ingredients:

Main ingredient: Coenzyme Q10 (CoQ10)

Excipients: Grape seed extract, collagen, nano-vitamin E

Marker Component and Content:

Each 15ml contains Coenzyme Q10 (60mg)

Health Functions:

Enhances immunity and exerts antioxidant effects

Suitable Population: Adults

Unsuitable Population:

Children and adolescents, pregnant women, lactating mothers, and people with allergic constitutions

Usage and Dosage:

Take one sachet each morning and evening

Specification:15ml × 20

Shelf Life:24 months

Storage Method:

Store in a cool place, protected from light and tightly sealed
